Please see below regarding the Request for Additional Information sent on October 3, 2012, referencing the July Quarterly FEC Report.

1. Questionable contributions such as political committees that are not registered with the FEC are deposited within 10 days of receipt. Further information is sought to determine whether or not the contribution is permissible and within 60 days a determination is made an action is taken. We refund those contributions deemed not permissible as indicated in the note section of those to which this applies in the amended report.
2. The term ""Field Services"" used to describe some disbursements has been changed to ""Canvassing,"" which is an acceptable term of use.
3. Reimbursements to individuals for expenses other than travel over \$200 are appropriately categorized for internal record keeping purposes. Some of these reimbursements are aggregate amounts, the individual amounts of which do not exceed \$200. However, those individual amounts that are over \$200 are itemized on the FEC report as required.
